1. INTRODUCTION

This document describes, and is written to conform to, author guidelines for Jordanian Journal of Computers and Information Technology (JJCIT). It is prepared in Microsoft Word as a .doc document. It is the only acceptable means of preparing manuscripts. Final camera-ready versions must conform to this layout too. Microsoft Word terminology is used where appropriate in this document. Although formatting instructions may often appear daunting, the simplest approach is to use this template and insert headings and text into it as appropriate.

2. FORMAT GUIDE

The following formatting rules must be followed strictly. This (.doc) document may be used as a template for papers prepared using Microsoft Word. Papers not conforming to these requirements may not be published in JJCIT.

2.1 General Format, Page Layout and Margins

Standard A4 (210mm x 297mm) portrait page set-up should be used. The left, right, top margins should be 25mm and bottom margins should be 15mm. Do not use any headers, footers or footnotes. No page numbers. Single column. All main text paragraphs, including the abstract, must be fully (left and right) justified. All text, including title, authors, headings, captions and body, will be Times New Roman font.

If necessary, use superscripts to link individual authors with institutions as shown above. Author affiliations are to be written in 12 pt. Times New Roman, centred, with email addresses, in

10 pt. Courier New, on the line following. The last email address will have an 18 pt. (paragraph) spacing following.

2.4 Abstract

The Abstract section begins with the word, “Abstract" in 13 pt. Times New Roman, bold italics, “Capital Caps" font with a 6pt. spacing following. The abstract must not exceed 150 words in length in 10 pt. Times New Roman italics. The text must be fully justified, with a 12 pt. paragraph spacing following the last line.

The Keywords section begins with the word, “Keywords” in 13 pt. Times New Roman, bold italics, “Capital Caps” font with a 6pt. spacing following. There may be up to five keywords (or short phrases) separated by commas and six spaces, in 10 pt. Times New Roman italics. An 18 pt. line spacing follows.

2.6 Section and Sub-Section Headings

Section headings are numbered 1. Xxx, 2. Yyy, etc. in 14 pt. bold “Small Caps” Times New Roman font with a 6 pt. line spacing following.
